

# Insulated Multi-Color Skirting

## TrimLock Ltd

*Home Base Skirting Protection at its Best*

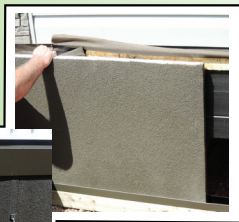

*Crisp Corner installation*

RTM Homes  
Modular Homes  
New & Remodeling  
Open Base Foundations  
Solid Foundations & Parging  
Deck Base enclosures

*Our hard shell panel is a result of 32 years of proven performance for above grade exterior protection. The unique finish offers multiple colors, impact resistant, excellent performance against harsh weather conditions.*

*Unique Appearance  
Large Access panel*

*Auto Vent inserts*

## Product Data

### Exterior Skirting Panels (Manufactured Homes)

#### Description

TrimLock Skirting Panel is a uniquely produced light weight Panel, 38.1 (1 ½") thick x 1219.2 mm (48") wide x 3657.6mm (144") long Acrylic stucco hard shell protection, reinforced edge and supporting metal trim.

#### Features

- Insulated Panel with (RSI 0.99) or (R5.6)
- Floating panels for ground and home movement
- Light weight for easy handling
- Multiple color/ True colour system
- Maintenance free
- European acrylic stucco finish
- Environmentally friendly

Each panel is specifically designed using a proprietary procedure for producing enhanced strength and flexibility Acrylic stucco insulating system, provides superior stability, strength, resistance to every day weather environments, raw materials used are of the highest quality available in the marketplace and meet or exceed CAN/ULC / ASTM / CGSB testing results.

#### Performance codes & Classifications

CCMC- 13103-R

CGSB- 1GP-162M

CAN/ULC- S701-97

CAN/UCL- S102-M83

Flame spread 8

Smoke develop less than 5

Fuel Contribution less than 5

EIMA-101-86 impact resistance

-3 joules (.0302 kgf-m) passed  
no cracks

-10 joules (1.02 kgf-m) passed  
no Perforation

ASTM- E283-91/ D897/ D579/  
D568/ D822-9

#### Applications

- Manufactured Homes
- New Residential & Commercial
- Renovations
- Projects requiring added insulation
- Complete wall parging cladding
- Open skirting
- Wood surfaces
- Concrete surfaces
- Masonry surfaces
- ICF block

#### Benefits

- EPS insulated Panels factory finished ready to install
- Repels water /wind /heat /cold
- No expansion and contraction due to heat and cold
- Impact resistance
- Flexible
- Commercial Grade Acrylic Stucco system
- Multiple colors
- Fire retardant acrylic finish & EPS foam insulation
- Each panel has its own fastening edge flange
- Compatible with walls/Glues to concrete brick/ ICF block
- Can be used as parging panel for concrete basements
- Cut with masonry blade /skill saw / mitre saw/ utility knife
- Lower cost compared to onsite stucco applications
- Light weight for easy handling and less wall stress
- Detailed appearance of First Class Quality
- Excellent performance with noise reduction
- Exceptional performance in wind driven environments
- Reduces energy cost, summer and winter

#### Qualities & Strength:

TrimLock skirting panel offers the strength and quality of a high performance commercial grade, Exterior Insulating Finishing System (EIFS) with thermal insulating characteristics. Only the finest quality, time tested and industry proven raw materials make up the Trimlock skirting/parging panel for quality assurance.
